

# Nationwide Coverage. Local Delivery.

With 94% of the national population base covered, Complete Delivery Solution gets your items delivered on time, every time.

## Managing Deliveries Just Got Easier

From city streets to country roads, Complete Delivery Solution provides on demand, same-day and scheduled/routed delivery services.

### Unrivaled Network

When you partner with Complete Delivery Solution, you gain access to a nationwide network of credentialed courier partners. Our comprehensive coverage includes every major city as well as mid-sized and rural markets so you can rely on a single partner for deliveries anywhere in the country.

### Enterprise Solution

From pick-up to drop-off, Complete Delivery Solution provides transparency throughout the process. You can choose our API integration to create a custom interface with your own system, or you can use our online portal. Our system tracks every order and allows you to manage, analyze and report on all deliveries. Our solutions eliminate the hassles of organizing different transportation partners in every city.

**Complete Delivery**  
Solution

Your business depends on satisfied customers. By partnering with Complete Delivery Solution, you'll have help making sure your packages arrive on time. Whether you need **on demand, same-day or scheduled/routed deliveries**, we'll meet your business needs in a cost effective manner.

## Program Features

### Schedule Online

Simply enter your pick-up and drop-off locations, any delivery details and hit submit. Once the order is received, we source the most cost effective delivery service so you receive the lowest price.

### Track and Manage All Deliveries in One Place

Our system makes tracking and managing orders quick and easy. Set up notifications according to your preferences and save time by using our order dashboard to view all open and completed orders.

### Generate Reports

Our powerful reporting engine allows you to easily create management reports, view trends and make informed decisions. You can view reports online or export to your preferred format.

#### Around the Clock Support

24/7/365 contact center ensures we are there whenever services are needed. 95% of all calls are answered directly by an agent, to get you the fastest service possible

#### Administrative Time Savings

Receive one invoice consolidating multiple carriers, greatly reducing reconciliation and payment processing time.

#### Quality Assurance

Dedicated team of research analysts assess your needs and continuously monitors competitive pricing and reliability.

#### Vetted Network

We put our service partners through a comprehensive credentialing process that includes background checks and on-going review of insurance coverage, saving you significant time and providing peace of mind.

#### Cost-Effective Rates

Having couriers in each market creates competition and results in cost savings.

Our couriers compete for volume based on price so you yield volume discounts that can't be obtained individually.

#### Technology

Our powerful technology platform enables you to easily place and manage on-demand, same day and scheduled deliveries.

Through API integration, we can connect our system to yours for seamless employee and customer experiences.
